EXECUTIVE SUMMARY

C.
IR60Din1
2004

UNIVERSITY OF ILLINOIS

Chicago • Springfield • Urbana-Champaign

Vice President for Administration and Comptroller
349 Henry Administration Building, MC-667
506 S. Wright Street
Urbana, IL 61801

To: Members of the Board of Trustees

Via: James J. Stukel
President

From: Stephen K. Rugg
Vice President for Administration and Comptroller

Date: September 11, 2003

I recommend that the Board of Trustees approve a \$3.3 billion fiscal year (FY) 2004 operating budget. The \$3.3 billion operating budget represents a \$206.3 million (6.7 percent) increase from FY2003. The Vice President for Academic Affairs and the Vice President for Administration prepared the budget and recommend the allocation of restricted funds in accord with the terms and conditions of the restrictions and the allocation of unrestricted funds following: (1) the policies and institutional priorities established by the Board of Trustees in consultation with senior academic leaders, and (2) recommendations of the President, the chancellors and provosts, after consultation with deans, directors, and other University officers on the methods and means of best executing the Board's policies and institutional priorities.

The following is an executive summary of the University's FY2004 operating budget. The accompanying supporting schedules detail the budget by campus, college, and department.

University Revenue FY2004

The University classifies its operating funds in three budget categories: (1) unrestricted funds, (2) restricted funds, and (3) payments on behalf of the University.

Unrestricted funds are available for allocation at the discretion of the University. The University classifies unrestricted funds for budgetary purposes as state funds and institutional funds. State funds include both direct state appropriations to the University and the University Income Fund. Direct State Appropriations represent operating support provided by the Governor and General Assembly from the General Revenue Fund, Fire Prevention Fund, University Trust Fund (i.e., scholarships funded from license plate revenue), and the Tobacco Settlement Recovery Fund. The University Income Fund includes tuition and miscellaneous University revenue. Institutional funds include indirect cost recovery (ICR), royalty, and administrative allowance funds. The recommendation includes a FY2004 unrestricted funds operating budget of \$1.4 billion representing a \$9.8 million (.7 percent) increase from FY2003.

Restricted funds are available only for those programs specified by the donor, grantor, contractor, or state statute. Restricted funds include estimated revenue from grants and contracts (i.e., sponsored projects), federal appropriations, private gifts, endowment income, Medical Service Plan (MSP), Auxiliary Enterprises (e.g., Assembly Hall, Housing, Memorial Stadium, Parking, Pavilion, Sangamon Auditorium, and Union operations), University Hospital, and other departmental activities (e.g., Intercollegiate Athletics, patient care at the Colleges of Dentistry, Pharmacy, and Veterinary Medicine, etc.). The recommendation includes a FY2004 estimated restricted funds operating budget of \$1.6 billion representing a \$171.1 million (12.3 percent) increase from FY2003.

Payments on behalf of the University are funds appropriated to the State Universities Retirement System (SURS) and the Department of Central Management Services (CMS) to pay the employer's contribution to SURS and a portion of the cost of providing health insurance to employees paid from State and selected restricted funds. The University supplements payments on behalf by paying \$24.9 million for a portion of the cost of providing health insurance for these employees. The employer's contribution to SURS and the cost of providing health insurance to employees paid from institutional funds and selected restricted funds are charged to such funds. The FY2004 estimate for payments on behalf is \$330.5 million. The \$330.5 million represents a \$25.4 million (8.3 percent) increase from FY2003.

The following table is a comparison of the operating revenue budget for fiscal years 2003 and 2004. All amounts are in thousands.

	FY2003	FY2004	Change FY2003 - FY2004	
	Operating Revenue	Operating Revenue	Amount	Percent
Unrestricted Funds				
State Funds:				
Direct Appropriations	\$758,759	\$699,461	(\$59,298)	-7.8%
University Income Fund	\$335,883	\$380,652	\$44,769	13.3%
Institutional Funds:				
ICR	\$173,379	\$194,819	\$21,440	12.4%
Royalties	\$25,678	\$17,990	(\$7,688)	-29.9%
Administrative Allowance	\$76,599	\$87,214	\$10,615	13.9%
Subtotal Unrestricted Funds	\$1,370,298	\$1,380,136	\$9,838	0.7%
Restricted Funds				
Sponsored Projects	\$551,190	\$635,968	\$84,778	15.4%
Federal Appropriations	\$17,126	\$18,745	\$1,619	9.5%
Private Gifts & Endowment Income	\$97,582	\$102,854	\$5,272	5.4%
MSP	\$85,893	\$100,028	\$14,135	16.5%
Auxiliary Enterprise Operations	\$236,734	\$258,120	\$21,386	9.0%
Hospital	\$228,176	\$262,648	\$34,472	15.1%
Departmental Activities	\$174,036	\$183,467	\$9,431	5.4%
Subtotal Restricted Funds	\$1,390,737	\$1,561,830	\$171,093	12.3%
Payments on Behalf	\$305,100	\$330,500	\$25,400	8.3%
Total	\$3,066,135	\$3,272,466	\$206,331	6.7%

The following table represents the FY2004 unrestricted and estimated restricted funds operating budget (all amounts in thousands) by object of expenditure in accordance with Board policy.

FY2004 Budget by Object of Expenditure

Appropriation Category	Unrestricted	Restricted	Total	% of Total
Personal Services & Benefits	\$1,007,069	\$709,459	\$1,716,528	52.5%
Commodities	\$26,004	\$148,658	\$174,662	5.3%
Travel & Automotive Equipment	\$11,463	\$33,144	\$44,608	1.4%
Contractual Services	\$205,046	\$404,077	\$609,123	18.6%
Equipment	\$53,254	\$98,293	\$151,547	4.6%
Telecommunications	\$10,953	\$15,639	\$26,592	0.8%
Permanent Improvements	\$7,560	\$5,816	\$13,376	0.4%
Awards	\$24,518	\$87,226	\$111,743	3.4%
Mandatory Transfers		\$8,706	\$8,706	0.3%
Fire Service Institute	\$1,408		\$1,408	0.0%
University Trust Fund--License Plates	\$150		\$150	0.0%
Health Insurance	\$24,893		\$24,893	0.8%
Division of Specialized Care for Children	\$6,818	\$50,811	\$57,629	1.8%
Technology Transfer	\$1,000		\$1,000	0.0%
Subtotal	\$1,380,136	\$1,561,830	\$2,941,966	89.9%
Payments on Behalf		\$330,500	\$330,500	10.1%
Total	\$1,380,136	\$1,892,330	\$3,272,466	100.0%

State Funds

The recommended \$699.5 million FY2004 direct state appropriations represents a \$59.3 million (7.8 percent) decrease in operating support from the Governor and General Assembly from the original FY2003 operating budget. The appropriation includes a reduction of \$58.0 million GRF, and \$1.5 million of Presidential Library and Museum Funds, along with an increase of \$.2 million in Fire Prevention Funds. The \$699.5 million direct state appropriation includes \$24.9 million payments to CMS for health insurance costs.

The recommended \$380.7 million FY2004 University Income Fund budget represents a \$44.8 million (13.3 percent) increase from the FY2003 operating budget. The 5% tuition increase approved by the Board will generate \$16.8 million to partially offset reductions in direct state support. The University Income Fund increase also includes the third year of the four-year tuition increase program, generating approximately \$13.2 million. The University is earmarking the use of these funds for financial aid and program improvements in the liberal arts and sciences, commerce and other undergraduate programs. Special tuition differentials in engineering and business at UIUC, as well as in selected graduate programs at UIC and UIUC are estimated to generate approximately \$8.5 million. Normal fluctuations of approximately \$6.3 million account for the remaining University Income Funds increase.

The FY2004 University Income Fund revenue budget is net of an estimated \$155 million of tuition waivers. The State limits undergraduate institutional waivers to 3% of gross tuition. The approximate distribution of tuition waivers is 10% to undergraduates, 83% to graduates, and 7% to students in professional programs. Waivers are reported annually to the IBHE and legislative staffs in accordance with state statute.

Prior to FY2000, the State appropriated funds to the University in several appropriations categories (e.g., personal services, contractual services, commodities, equipment, travel, etc.). This form of appropriation restricted the use of the funds to the specific object of appropriation categories. Since FY2000, State appropriations have been made in a lump sum. However the University continued to report the budgeting and use of State appropriations and University Income Fund to the Illinois Board of Higher Education, the Bureau of the Budget, and legislative staff by object of appropriation categories. The State of Illinois will return to the practice of budgeting the direct state appropriations to the University by object of expenditure categories beginning with the fiscal year 2005 appropriation.

Supporting Schedule D displays the State fund budget by college and department. The University makes these state funds available to individual departmental state accounts when the Board of Trustees approves the budget.

Institutional Funds

The University receives ICR revenue as payments from sponsored projects for indirect project costs¹. Sponsored projects pay the University a percentage of the direct project costs for indirect project costs. The recommended \$194.8 million FY2004 ICR operating budget represents a \$21.4 million (12.4 percent) increase from FY2003. The recommended ICR operating budget includes \$26.6 million carried forward from FY2003 and a \$168.2 million estimate of FY2004 ICR revenue. The allocation of FY2004 ICR revenue to individual ICR account budgets follows a campus allocation formula. The campus formulas provide appropriate incentives for promoting research activities and approximate the cost components of the ICR rate formula. The use of ICR funds follows the 'University Guidelines' approved by the Board of Trustees and the Legislative Audit Commission.

The primary sources of royalty revenues are payments for University owned patents and copyrights. The recommended \$17.9 million royalty operating budget represents a \$7.7 million (29.9 percent) decrease from FY2003. The recommended operating budget includes \$11.8 million carried forward from FY2003 and a \$6.1 million estimate of FY2004 royalty revenue. The allocation of FY2004 royalty revenue to individual departmental royalty accounts follows a campus allocation formula. The campus allocation formulas provides appropriate incentives for promoting royalty-generating activities and approximates the costs incurred for the royalty programs.

The primary sources of administrative allowance revenue are payments by auxiliary enterprises, the Hospital, and MSP for University services. The payments are a percentage of the direct costs. The recommended \$87.2 million administrative allowance operating budget represents a \$10.6 million (13.9 percent) increase from FY2003. The recommended administrative allowance operating budget includes \$41.3 million carried forward from FY2003 and a \$45.9 million estimate of FY2004 administrative allowance revenue.

The following summarizes the display of the ICR, royalty, and administrative allowance budgets in the supporting schedules and provides an overview of the accounting for the budgets in individual departmental ICR, royalty, and administrative allowance accounts.

- ✓ The supporting schedules display ICR, royalty, and administrative allowance budgets as 'Institutional Funds'.
- ✓ Supporting Schedule D displays unspent FY2003 institutional funds as 'Balances Brought Forward' on the 'Campus General' pages and on the 'General' page for University Administration. The University carries these funds forward for the individual departments into their FY2004 departmental accounts.
- ✓ Supporting Schedule D also displays the \$52.0 million estimate of FY2004 royalty and administrative allowance revenue by campus, college and department. The University makes these funds available to individual departmental accounts when the Board approves the budget.
- ✓ Supporting Schedule D also displays \$130.1 million of the total FY2004 ICR revenue by campus, college and department. The University makes these funds available to individual departmental accounts when the Board approves the budget. The remaining \$38.1 million of the FY2004 ICR revenue is displayed on the supporting Schedule D as 'Earnings Contingency' on the 'Campus General' pages and on the 'General' page for University Administration. When the University earns the 'Earnings Contingency', the University will transfer the funds from the 'General Campus' and 'General' account to individual departmental accounts.

¹ Direct project costs are those costs that can be directly assigned relatively easily with a high degree of accuracy to a particular sponsored project, or to the University's instruction, research, public service, or economic development activities. Indirect project costs are costs incurred for common or joint objectives and therefore cannot be identified readily and specifically with a particular sponsored project, or any other institutional activity. Since these costs cannot be specifically identified with a single grant or contract, it is necessary to share the costs over all grants and contracts.

Restricted funds

Grantors and contractors restrict the use of sponsored project funds for a specific scope of work and faculty member (Principal Investigator). The FY2004 sponsored project budget is an estimate of grant and contract awards for direct costs. The \$636.0 million estimated sponsored project budget represents an \$84.8 million (15.4 percent) increase from FY2003.

Federal Appropriations are funds provided by the Federal Government for the College of ACES. The \$18.7 million estimated Federal Appropriations budget represents a \$1.6 million (9.5 percent) increase from FY2003.

Private gifts represent funds received from donors in support of the University's annual operating budget. Endowment income funds are allocations from investment income on University and University of Illinois Foundation endowments for use in the annual operating budget. The University's endowment pool budgeted spending program for fiscal year 2004 is 4.75% of the seven-year moving average endowment market value. The purpose of the budgeted spending approach is to maintain the real value of the endowment pool corpus and to provide intergenerational equity in the distribution stream. The majority of donors designate the use of gifts and endowments for a specific scope of work or department. The \$102.9 million private gifts and endowment income operating budget represents a \$5.3 million (5.4 percent) increase from FY2003.

The supporting schedules display sponsored project, federal appropriation, private gift, and endowment income budgets as 'Restricted Funds'. Schedule D displays the budget for these funds by campus and college or administrative unit. The University makes these funds available to individual accounts upon the sponsor's award of project funds, approval of the federal appropriation, receipt of the gift funds and Board of Trustees approval of the endowment income budget.

College of Medicine physicians generate MSP revenues by providing and billing for patient care services. The departments contribute a portion of MSP revenue to the Dean's office for the operation of the College of Medicine and retain the balance of MSP revenue they generate. The recommended \$100 million FY2004 MSP funds operating budget represents a \$14.1 million (16.5 percent) increase from FY2003.

Auxiliary enterprise operations (i.e., Assembly Hall, Housing, Memorial Stadium, Parking, Pavilion, Sangamon Auditorium, and Union operations) generate revenue from the sale of products and services. The auxiliary enterprises retain the revenue they generate. The recommended \$258.1 million FY2004 auxiliary enterprise funds operating budget represents a \$21.4 million (9.0 percent) increase from FY2003.

The University Hospital generates revenue for providing patient services in the hospital and clinics. The hospital retains the revenue it generates. The recommended \$262.6 million FY2004 hospital operating budget represents a \$34.5 million (15.1 percent) increase from FY2003.

Departmental activity operations (e.g., Intercollegiate Athletics, patient care at the Colleges of Dentistry, Pharmacy, and Veterinary Medicine, etc.) generate revenue from the sale of products and services. The departmental activities retain the revenue they generate. The recommended \$183.5 million FY2004 departmental activity operating budget represents a \$9.4 million (5.4 percent) increase from FY2003.

The supporting schedules display the MSP, auxiliary enterprise, hospital, and departmental activity budgets as 'Restricted Funds.' Schedule D displays the revenue budget estimates by campus and college or department. The University makes these funds available to individual accounts when the Board of Trustees approves the budget.

Campus General and the University Administration General Accounts

Supporting schedule D contains a 'Campus General' account for each campus and a 'General' account for University Administration. These accounts include the following: (1) the unspent FY2003 departmental ICR, royalty, and administrative allowance budgets, (2) the ICR 'Earnings Contingency,' (3) budgets targeted for specific programs, and (4) a budget for recurring needs that will be utilized for different departments, programs, or projects from one year to the next.

The University carries forward unspent FY2003 departmental ICR, royalty, and administrative allowance budgets into their respective FY2004 departmental account budgets. As the University earns the 'Earnings Contingency,' the University will transfer the funds from these general accounts to individual departmental ICR account budgets, per the campus formula. The University transfers the funds targeted for specific programs from these general accounts as needed in the fiscal year.

The budgets for recurring needs that will differ by department, program, or project from one year to the next will be transferred from the 'Campus General' and the University Administration 'General' accounts as needed during the fiscal year.

Board of Trustees Budgetary Oversight and Accountability Including Delegation of Budget Authority

The Board of Trustees exercises its stewardship and fiduciary responsibilities by (1) approving the University's annual operating budget including specified changes to the budget, (2) establishing policies of the delegation of administrative authority for approving and, where applicable, reporting specified budget transactions (such policies shall ensure appropriate balance between the need for Board of Trustees oversight while facilitating the effective and efficient operation of the University), and (3) establishing an organization structure and management team for University operations to ensure the approval and reporting of specified budget transactions in accordance with Board policies. The following specifies the Board of Trustees requirement for prior Board approval of specified budgetary transactions, the delegation of authority for specified budgetary transactions, and the required Board reporting of budgetary activities.

Prior Board of Trustees approval is required to authorize:

- ✓ The transfer of any unrestricted funding from the Personal Services and Benefits object of expenditure to any other object of expenditure.
- ✓ The transfer of any unrestricted funding from an object of expenditure that will cause the total transfers to exceed two percent of the total unrestricted funds budget.
- ✓ Individual programmatic budget adjustments greater than \$2.0 million, exclusive of routine accounting transactions as defined in the glossary.
- ✓ The allocation or expenditure of a supplemental state appropriation, additional University Income Fund revenue, and additional Institutional Fund revenue.

The Board of Trustees delegates to the President authority for:

- ✓ The transfer of any unrestricted funding from an object of expenditure, not including Personal Services and Benefits object of expenditure, that will not cause the total transfers to exceed two percent of the total unrestricted funds budget.
- ✓ Individual programmatic budget adjustments up to \$2.0 million in accordance with the University's needs, the policies and institutional priorities established by the Board of Trustees, and within total income as it accrues, exclusive of routine accounting transactions as defined in the glossary. Individual programmatic budget adjustments greater than \$1.0 million and less than \$2.0 million, exclusive of routine accounting transactions will be included in quarterly reports to the Board of Trustees.
- ✓ The reduction of departmental allocations necessitated by a decrease in the state appropriation, University Income Fund revenue, or Institutional Fund revenue.
- ✓ The acceptance of restricted fund revenue. The Board recognizes that restricted funds revenue and the object of expenditure categories of such revenue may vary from the FY2004 estimated restricted funds operating budget approved by the Board. Consequently, the Board authorizes departmental restricted fund budgets and expenditures for the restricted purposes of the funds within the total income as it accrues. The Board delegates authority to the President to oversee restricted funds revenue for the restricted purpose and to allocate such restricted funds as the revenue accrues.

The Board of Trustees requires quarterly reporting as follows:

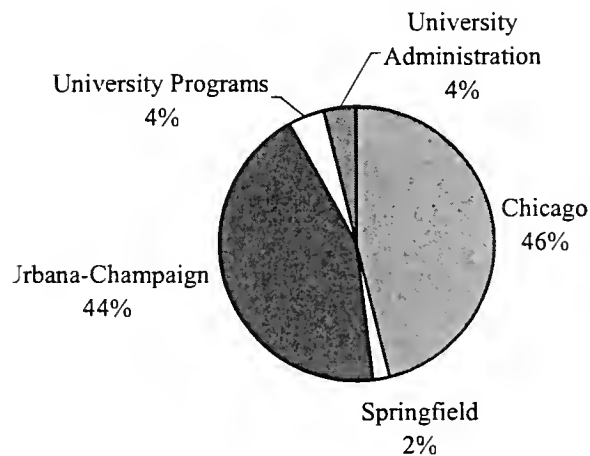

- ✓ Comparison of unrestricted fund budgets and projected expenditures by object of expenditure category.
- ✓ Unrestricted fund expenditures by campus and object of expenditure category.
- ✓ Restricted fund expenditures by campus and object of expenditure category.
- ✓ Comparison of University Income Fund revenue to budget.
- ✓ Comparison of ICR fund budget and projected expenditures.
- ✓ Comparison of ICR fund revenue to budget.
- ✓ Report of programmatic budget transfers, exclusive of routine accounting transactions, in excess of \$1 million but not greater than \$2 million.

Projected University Expenditures FY2004

The following table projects the University's expenditures by the function codes adopted by the National Association of College and University Business Officers (NACUBO) for fiscal reporting for institutions of higher education. The glossary includes definitions of these function codes.

NACUBO functions	Percent of total
Instruction	18.2%
Research	22.6%
Public Service	10.8%
Academic Support	8.0%
Student Services	2.4%
Institutional Support	5.8%
Plant Operations	5.9%
Hospital Operations	10.9%
Independent Operations	3.9%
Auxiliary Activities	8.8%
Scholarships/Fellowships	2.7%
Total	100.0%

The pie chart below illustrates the projected FY2004 revenues and expenditures by campus.

The following are supporting schedules to the University's operating budget. The supporting schedules provide an itemization of the budget by campus, college, and department. The supporting schedules include all direct revenue sources but exclude payments on behalf and tuition waivers.

GLOSSARY OF TERMS

GLOSSARY OF TERMS

EXPENDITURE FUNCTIONAL CLASSIFICATIONS

Academic Support

Expenditures to provide support services for the institution's primary missions--instruction, research, and public service. It includes libraries, museums, educational media services, academic computing support, academic administration, academic personnel development, and course and curriculum development.

Auxiliary Enterprises

Expenditures for self supporting operations which are not directly related to instruction, research, or public service units but which exist to furnish goods or services to students, faculty, and staff. Examples include food service, residence halls, bookstores, and student unions.

Hospital

Expenditures associated with the patient care operations of the hospital. It includes direct patient care, health care supportive services, and administration of the hospital.

Independent Operations

Expenditures of operations which are independent of, or unrelated to, but which may enhance the primary missions of the institution. It includes commercial operations such as Willard Airport at Urbana-Champaign and the steam plant in Chicago.

Institutional Support

Expenditures for central executive-level activities concerned with management and long-range planning of the entire institution; fiscal operations including the investment office; administrative data processing; space management; employee personnel and records; logistical activities that provide procurement, storerooms, safety, security, printing, and transportation services to the institution; support services to faculty and staff that are not operated as auxiliary enterprises; and activities concerned with community and alumni relations including development and fund raising.

Instruction

Expenditures for all activities that are part of an institution's instruction program. It includes credit and noncredit courses for academic, vocational and technical instruction, and remedial and tutorial instruction.

Operation and Maintenance of Plant

Expenditures of current operating funds for the operation and maintenance of physical plant. It includes physical plant administration, building maintenance, utilities, and custodial services.

Public Service

Expenditures for activities that are established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. It includes such services as cooperative extension service, community service, and public broadcasting services.

Research

Expenditures for activities specifically organized to produce research outcomes whether commissioned by an agency external to the institution or separately budgeted by an organizational unit within the institution. It includes institutes and research centers and individual and project research.

Scholarships and Fellowships

Expenditures for scholarships and fellowships in the form of outright grants to students selected by the institution and financed from current funds, restricted or unrestricted including trainee stipends and awards. (Budget excludes the value of tuition and fee waivers granted staff and graduate assistants.)

Student Services

Expenditures for offices of admission and registrar and those activities which have the primary purpose of contributing to the student's emotional and physical well-being and to his or her intellectual, cultural, and social development outside the context of the formal instruction program. It includes student services administration, social and cultural development, counseling and career guidance, financial aid administration, and student admissions and records.

FUND GROUPS**State**

Expenditures which have a source of funds of state appropriations or University Income Fund (primarily tuition).

Non-State FundsInstitutional

Expenditures which have a source of funds of institutional costs recovered from grants and contracts, private unrestricted gifts, and educational and administrative allowances.

Restricted

Expenditures which have a source of funds of U.S. Government, State of Illinois, and private grants and contracts as well as endowment income, private gifts, work study program, medical service plan, dental service plan, and federal appropriations.

Auxiliary/Departmental Activities**Auxiliary Enterprises**

Expenditures for self supporting operations which are not directly related to instruction, research, or public service units but which furnish goods or services to students, faculty, and staff. Examples include food service, residence halls, bookstores, and student unions.

Departmental Activities

Expenditures for operations which are self supporting in whole or part that are directly related to the institution's primary missions -- instruction, research, and service.

ACCOUNTING TRANSACTIONS: BUDGET TRANSFERS

Routine accounting transactions are budget transfers that do not alter the intent of the budget as approved by the Board of Trustees. Routine accounting transactions include the following:

- A. Collaborative programs (i.e., inter-departmental cost sharing) - Departments collaborate on many instructional and research programs. Budget is transferred as units pay for their share of costs.
- B. Funds budgeted in the 'Campus General' and the University Administration 'General' accounts for known categories of recurring costs that will be spent in different departments, programs, or projects from one year to the next. These funds are transferred from the 'Campus General' and the University Administration 'General' accounts to the department, program, or project where the funds are needed in the fiscal year. The 'Campus General' and the University Administration "General" accounts provide funding for the following categories of recurring costs.
 1. Facilities (i.e., land/property acquisition, infrastructure, leaseholds, debt service, deferred maintenance, repair & renovation, remodeling)
 2. Insurance (i.e., board legal, property/crime public liability)
 3. Sick Leave (i.e., termination benefit funds)
 4. Research Board support - funding to faculty for seed money for research projects
 5. Special Appropriations
 6. Summer Session Support (i.e., summer session costs)
 7. Health & Safety (i.e., security, hazardous waste handling)
 8. Professional programs (i.e., earned tuition – Vet Med., Law, MBA, Commerce International)
 9. New program funds that were targeted during the budget process for a specific program or department but were not allocated until after the presentation of the Budget Summary for Operations to the Board of Trustees. These funds are shown in the Budget Summary for Operations in a holding account.
 10. Student support (e.g., commencement costs, President's awards)
- C. ICR Earnings Distribution – Overhead units (O&M, Library, VCR and others) receive ICR allocations as a part of the budget process. The college and department share of ICR is transferred to units as they earn it throughout the year.

- D. Grant & Contract awards or gifts to the University.
- E. Exchanges of funds - a college requests an object of expenditure exchange (e.g., expense funds in exchange for equipment funds) or ICR funds in exchange for State funds. Exchanges have no net impact upon a unit's budget.
- F. Faculty support - recruitment/retention, minority faculty support, awards (e.g., start-up costs, named professorships, matching research costs, University Scholars, teaching awards).
- G. Technology Support.
- H. Transfers within a college. Larger colleges generally distribute some centrally held funds during the year. For example, a college might distribute teaching assistant support funds based on the instructional load of departments.
- I. Transfers within a restricted fund.
